

## CLEVIS SLIP HOOK

The Stainless Clevis Slip Hook is designed with a wider throat, which allows items such as webbing, chain, master links or shackles to be placed on the hook and not slip out when there is no weight holding them in place. The Clevis Slip Hook has a removable latch and clevis pin and the clevis for chain link attachment.

Grade 316 Stainless Steel & Drop Forged

WLLs are based on gradual pull, not shock loads

Includes removable latch & clevis pin
